

## Chapter 6

# Implementation Program

### 6.1 Introduction

The success of this RMP will ultimately be measured by the degree to which it is implemented. This chapter provides a framework necessary to follow through with the Goals and Objectives, and implement the Management Actions presented in Chapter 5. This chapter consists primarily of a series of tables (Tables 6.1-1 through 6.1-6, presented at the end of this Chapter) that reiterate, prioritize, establish sequencing, identify responsibility for implementation, and designate key funding for each Management Action. The purpose of these tables is to assist resource managers, staff, and managing partners in implementing specific actions required to achieve the RMP's Goals and Objectives. These tables also provide a convenient mechanism to track implementation progress on a regular (annual) basis over the 15-year life of the plan.

### 6.2 Implementation Components

It should be noted that implementation in general for the Black Canyon Reservoir and Montour WMA RMP is dependant on Federal funding and in many cases is also dependant on cost share requirements. The timing indicated in Tables 6.1-1 through 6.1-6 is an approximation only and will depend on the availability of Federal and non-Federal cost share funds. Implementation of the RMP is organized into a series of specific

Management Actions for each of the issues associated with Natural Resources; Cultural Resources; Indian Sacred Sites; Indian Trust Assets; Recreation and Access; and Land Use, Management, and Implementation. Tables 6.1-1 through 6.1-6 present a structure that addresses the key components of implementation. Each component is listed in a separate column in these tables and explained below.

#### 6.2.1 Management Actions

Management Actions are specific action items intended to implement each Objective, consistent with Goals listed in Chapter 5. To avoid repetition with Chapter 5 in Tables 6.1-1 through 6.1-6, Management Actions are listed by number and a full description is provided.

#### 6.2.2 Prioritization

Each Management Action is prioritized in a simple hierarchy ranging from "High" to "Low." High priority Management Actions are identified as critical to the success of this RMP. Management Actions identified as Medium priority are still considered important, but not critical. Low priority Management Actions are those that should be implemented if resources are available. Mandatory actions are listed as "Required" elements.

### **6.2.3 Related Management Actions**

Other related or linked Management Actions for the same resource topic are identified in Column 3, as appropriate.

### **6.2.4 Timing and Sequencing**

All Management Actions listed in the following tables are intended to be implemented during the life of this 15-year plan. The timing column identifies the specific timeframe, by indicating which year the action is anticipated to commence. Management Actions to be implemented continuously, annually, or on an as-needed basis are also indicated.

### **6.2.5 Lead Agency**

A single agency with lead responsibility for implementation of each Management Action is listed (underlined) in Column 5. Agencies playing support roles are also listed in this column (not underlined). In addition to Reclamation, responsible agencies include: IDFG, Gem County Sheriff, and others.

### **6.2.6 Funding**

Column 6 lists anticipated sources of funding for each Management Action. For example, potential funding and authority for recreation planning, enhancement, and development is from Reclamation's Title 28 cost sharing program with its partnering agencies.

### **6.2.7 Monitoring**

Plan implementers are expected to monitor implementation progress through the life of the RMP. This column describes the type and timing of each specific Management Action to be implemented (as appropriate and needed).

## **6.3 Amending and Updating the RMP**

### **6.3.1 Amending Information in the RMP**

The RMP will be reviewed and amended on an as-needed basis to reflect changing conditions, new information, and budgetary realities. Much of this is expected to occur in response to activities related to monitoring actions (e.g., water quality) and facilities development when it occurs (e.g., day use area improvements, trails development, etc.). Any major changes or amendments to the RMP would require additional public involvement and NEPA analysis.

### **6.3.2 Updating the RMP**

This RMP has an intended life of 15 years. Therefore, a thorough review will be needed to the RMP around 2019. Plan updates or plan amendments can be done whenever conditions warrant and require NEPA analysis and ample opportunity for public involvement, and agency and Tribal coordination.

**Table 6.1-1. Management Actions for Natural Resources (NAT).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence		Lead Agency <sup>1</sup>	Funding	Monitoring
			Timming/ Sequence	Lead Agency <sup>1</sup>			
<b>Wildlife, Vegetation, and Habitat Management</b>							
<b>NAT 1.1.1:</b> Comply with Federal Endangered Species Act regarding all pertinent activities by using existing and future information in adaptive management of Federally protected species and their habitat.	R	NAT 1.1.2	Ongoing	Reclamation, DFG, USFWS	Various	If needed	
<b>NAT 1.1.2:</b> In addition to ESA-protected species, specifically protect State species of special concern, including Idaho Conservation Data Center category S2 and S3 plants and plant communities.	H	NAT 1.1.1	Ongoing	Reclamation, DFG	Various	If needed	
<b>NAT 1.1.3</b> TES and rare species surveys will be conducted as necessary, but prior to the start of construction. Any established search protocols will be followed.	R	NAT 1.1.1 1.1.2	Ongoing	Reclamation, DFG, USFWS	Reclamation and Various	If TES species located	
<b>NAT 1.2.1:</b> Disturbed areas resulting from construction will be replanted with native vegetation in coordination with DFG, with non-native species used as appropriate. Plant species will be selected to match the site's soil type, elevation, and surrounding vegetation.	R	NAT 1.2.3	As needed	Reclamation, DFG	Reclamation and DFG	As needed to ensure planting success	
<b>NAT 1.2.2:</b> To the maximum extent practicable, all existing trees, shrubs, and other naturally occurring vegetation will be preserved and protected from construction operations and equipment, except where clearing operations are required for permanent structures, approved construction roads, trails, or excavations operations.	R	NAT 1.2.2	As needed	Reclamation, DFG	Reclamation and DFG	N/A	
<b>NAT 1.2.3:</b> To the maximum extent practicable, all maintenance yards, field offices, and staging areas will be arranged to preserve trees, shrubs, and other vegetation.	R	NAT 1.2.2	As needed	Reclamation, DFG	Reclamation and DFG	N/A	
<b>NAT 1.2.4:</b> Clearing will be restricted to that area needed for construction. In sensitive habitat areas including, but not limited to, wetlands and riparian areas, clearing may be restricted to only a few feet beyond areas required for construction.	R	NAT 1.2.3	As needed	Reclamation, DFG	Reclamation and DFG	N/A	
<b>NAT 1.2.5:</b> Stream corridors, wetlands, riparian areas, steep slopes, or other critical environmental areas will not be used for equipment or materials storage or stockpiling; construction staging or maintenance; field offices; hazardous material or fuel storage, handling, or transfer; or temporary access roads in order to reduce environmental damage.	R	NAT 1.2.3	As needed	Reclamation, DFG	Reclamation and DFG	N/A	

**Table 6.1-1. Management Actions for Natural Resources (NAT).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>NAT 1.2.6:</b> Excavated or graded materials will not be stockpiled or deposited on or within 100 feet of any steep slopes (defined by industry standards), wetlands, riparian areas, or stream banks (including seasonally active ephemeral streams without woody or herbaceous vegetation growing in the channel bottom), or on native vegetation.	R	NAT 1.2.3	As needed	<u>Reclamation, DFG</u>	Reclamation and DFG	N/A
<b>NAT 1.2.7:</b> To the maximum extent possible, staging areas, access roads, and other site disturbances will be located in disturbed areas, not in native or naturally occurring vegetation.	R	NAT 1.2.5	As needed	<u>Reclamation, DFG</u>	Reclamation and DFG	N/A
<b>NAT 1.2.8:</b> The width of all new permanent access roads will be kept to the absolute minimum needed for safety, avoiding wetland and riparian areas where possible. Turnouts and staging areas will not be placed in wetlands.	R	NAT 1.2.5	As needed	<u>Reclamation, DFG</u>	Reclamation and DFG	N/A
<b>NAT 1.2.9:</b> Minimize the amount of waste material and trash accumulations around construction areas and storage yards.	R	NAT 1.2.10	As needed	<u>Reclamation, DFG</u>	Reclamation and DFG	N/A
<b>NAT 1.2.10:</b> Remove all unused materials and trash from construction and storage sites during the final phase of work. All removed material will be placed in approved sanitary landfills or storage sites, and work areas will be left to conform to the natural landscape.	R	NAT 1.2.9	As needed	<u>Reclamation, DFG</u>	Reclamation and DFG	N/A
<b>NAT 1.2.11:</b> Grade disturbed land following construction to provide proper drainage and blend with the natural contour of the land.	R	NAT 3.1.1	As needed	<u>Reclamation, DFG</u>	Reclamation and DFG	N/A
<b>NAT 1.2.12:</b> Construction activities that could impact fish shall be undertaken during non-spawning periods.	R	NAT 1.2.6	Ongoing	<u>Reclamation, DFG</u>	Reclamation and DFG	N/A
<b>NAT 1.2.13:</b> If the proposed expansion for Cobblestone Park moves forward (i.e., dependent on implementation by a non-Federal public entity managing partner agreement between Reclamation and IDL), design considerations shall conserve the trees and shrubs onsite, control weeds, and limit vehicle use to roadways.	H		As needed	<u>Reclamation, Managing Partner</u>	50/50 Cost share	As needed
<b>NAT 1.3.1:</b> Protect and enhance wetland and riparian habitat quality by actively managing grazing or excluding livestock in wetland and riparian areas (see Figure 5.2-3).	H		Initiate Year 1	<u>Reclamation, DFG</u>	N/A	As needed
<b>NAT 1.3.2:</b> Develop and implement a planned program for up to an additional 25 – 50 pond acres.	M	NAT 1.3.3	Initiate Year 3	<u>Reclamation, DFG</u>	75/25 Cost share	Follow Pond Mgmt. Plan recommendations
<b>NAT 1.3.3</b> Develop and implement a long-term pond maintenance plan for all ponds within the Montour WMA, including monitoring for/of: infiltration of Eurasian milfoil, water control structure operability, and water flow (to decrease stagnant water and help control mosquitoes).	M	NAT 1.3.2	Initiate Year 3	<u>Reclamation, DFG</u>	75/25 Cost share	Follow Pond Mgmt. Plan recommendations

**Table 6.1-1. Management Actions for Natural Resources (NAT).**

Action	Priority	Related Mgmt Actions	Timing/Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>NAT 1.3.4</b> Based on field review of project sites, avoid sensitive wetland plants and communities.	H		Ongoing	Reclamation, DFG	75/25 Cost share	As needed
<b>NAT 1.3.5</b> Obtain water rights following the State process, utilizing water for wetlands from natural seepage and/or agricultural wastewater.	R		Initiate Year 3	Reclamation, DFG	75/25 Cost share	As needed
<b>NAT 1.3.6</b> Where possible develop new wetlands/open water ponds in upland areas at Montour WMA, but within wet meadows if water sources are more appropriate. No ground-disturbing activities shall be undertaken before a field review is conducted to determine the likelihood of occurrence of sensitive species (e.g., spotted frog). If warranted, a sensitive species survey would be conducted following established protocols and seasonal requirements. Project implementation and design would be based on the findings of the survey.	M	NAT 1.3.8	Initiate Year 3	Reclamation, DFG	75/25 Cost share	As needed
<b>NAT 1.3.7</b> Proportionally replace areas and habitat value of all wetland and riparian areas that are directly impacted or degraded by implementation actions.	H		As Needed	Reclamation, DFG	75/25 Cost share	As needed
<b>NAT 1.3.8</b> Reclamation will manage the pond that will be constructed at NW1/4, SE1/4, of Section 22, Township 7N, Range 1E, Benchmark Gem County based on the following stipulations in Idaho Department of Water Resources Permit No. 65-22696:						
1. Reclamation will incorporate an emergency spillway into the pond design to prevent the possible backup and uncontrolled release of water and additional flooding of the road.	H	NAT 1.3.6	Initiate Year 1	Reclamation, DFG	75/25 Cost share	As needed
2. Reclamation will maintain the pond and the area in and around the pond with an Integrated Pest Management Plan.						
<b>NAT 1.4.1:</b> Work with partner agencies (IDFG, Gem County Weed Control, and Upper Payette CWMA) to develop and implement an Integrated Pest Management Plan for the RMP study area.	R	NAT 1.4.2	Initiate Year 3	Reclamation, DFG Gem County Weed Control, Upper Payette CWMA	Reclamation	As specified in IPM Plan
<b>NAT 1.4.2:</b> Seek additional funding to implement actions related to the control of noxious weeds.	H	NAT 1.4.1	Initiate Year 1	Reclamation	Reclamation	N/A
<b>NAT 1.4.3:</b> Actively monitor all sites that are disturbed for facilities for these invasive species. All infestations shall be treated in accordance with accepted methods and agreements with IDFG and Gem County and in accordance with Reclamation's Integrated Pest Management Plan.	H	NAT 1.4.1	Initiate Year 2	Reclamation, DFG Gem County Weed Control	Reclamation	As specified in IPM Plan

**Table 6.1-1. Management Actions for Natural Resources (NAT).**

Action	Related Mgmt Actions	Priority	Timing/Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring	
<b>NAT 1.4.4:</b> If the expansion proposed for Black Canyon Park (i.e., dependent on implementation by a non-Federal managing partner) takes into account the riparian edge of the reservoir, its design shall include removing false indigo and other weedy species that are invading along the riparian zone, and leaving native vegetation in place.		H	As Needed	<u>Reclamation, Managing Partner</u>	50/50 Cost share	As Needed	
<b>NAT 1.5.1:</b> Support IDFG's efforts to optimize production of waterfowl and upland game birds in the Montour WMA. Specific strategies include: <ol style="list-style-type: none"> <li>1. Annually maintain waterfowl nesting structures.</li> <li>2. Monitor and manage additional residual nesting cover on approximately 50% of the upland habitat within the WMA so as to optimize the vigor, biodiversity, and density of vegetation.</li> <li>3. Develop additional ponds according to established priorities and rare species and community protection, as funding becomes available. Ensure that appropriate measures are instituted at any new ponds to control mosquitoes, aquatic weeds, and other pests, per the Integrated Pest Management Plan (see NAT 1.4).</li> <li>4. Maintain and increase water control structures to stabilize water levels to prevent nest flooding.</li> <li>5. Utilize media to distribute information on the importance of protecting wildlife during the spring production period.</li> <li>6. Enforce area closures to minimize disturbances to wildlife.</li> </ol>			Ongoing	<u>IDFG, Reclamation</u>	75/25 Cost share	As Needed	
<b>NAT 1.5.2:</b> Support IDFG's efforts to increase upland wildlife carrying capacity. Specific strategies include: <ol style="list-style-type: none"> <li>1. Maintain tall grass/forb areas providing dense nesting cover during spring nesting season.</li> <li>2. Plant food plots in irrigated areas with emphasis on perennial plants.</li> <li>3. Use the IDFG Habitat Improvement Program to establish food sources and nesting area.</li> <li>4. Use reservists and volunteers to establish and maintain these habitats.</li> <li>5. Establish forbs as permanent cover for upland wildlife.</li> <li>6. Encourage heavy cattail stands to provide thermal cover.</li> </ol>		H		Ongoing	<u>IDFG, Reclamation</u>	75/25 Cost share	As Needed
<b>NAT 1.5.3:</b> Work with IDFG and Gem County Sheriff Department to enforce seasonal closures for nesting and other pertinent wildlife protection measures at Montour WMA. Nesting habitat shall be protected by restricting activities during the nesting season) (i.e., February 1 - July 31).		H		Ongoing	<u>IDFG, Reclamation</u>	N/A	As Needed
<b>NAT 1.5.4:</b> Work toward an agreement with local ditch company regarding ditch maintenance to facilitate protecting and enhancing wildlife and habitat values in Montour WMA.		M		Initiate Years 2 – 5	<u>Reclamation, IDFG, Ditch Company</u>	75/25 Cost share	As Needed

**Table 6.1-1. Management Actions for Natural Resources (NAT).**

Action	Priority	Related Mgmt Actions	Timing/Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>NAT 1.5:</b> Maintain fishery to optimize resources for the benefit of wildlife at Montour WMA as well as the public by accommodating fishing opportunities outside of restricted seasons of use.	M		Ongoing	<u>IDFG, Reclamation</u>	75/25 Cost share	As Needed
<b>NAT 1.6:</b> Undertake wildfire rehabilitation in keeping with wildlife habitat values and the intent of the WMA.	H		As Needed	<u>IDFG, Reclamation</u>	75/25 Cost share	As Needed
<b>NAT 1.7:</b> Implement prescribed burning for habitat manipulation followed by appropriate planting.	M		As Needed	<u>IDFG, Reclamation</u>	75/25 Cost share	As Needed
<b>NAT 1.6.1:</b> Update the MOU between Reclamation and IDFG acknowledging the boundary and other management changes adopted as part of the RMP.	H		Initiate Year 1	<u>Reclamation, IDFG</u>	N/A	N/A
<b>NAT 1.6.2:</b> Institute a program to clearly mark and maintain the boundary between Reclamation and private property along the newly established WMA boundary.	M		Initiate Year 3	<u>Reclamation, IDFG</u>	Reclamation	As Needed
<b>NAT 1.6.3:</b> Show the expanded WMA area on all maps prepared for the Black Canyon Reservoir and Montour WMA (e.g., signs and pamphlets).	H		Ongoing	<u>Reclamation, IDFG</u>	Reclamation	As Needed
<b>NAT 2.1.1:</b> Parking lots shall be designed to promote efficient vehicle and boat traffic to prevent congestion and pollution.	R	NAT 2.4.1, 2.4.2,	As needed	<u>Reclamation, IDFG</u>	N/A	N/A
<b>NAT 2.1.2:</b> Waste facilities shall be connected, whenever possible, to sanitary sewer systems instead of septic tanks to avoid water quality problems from failed tanks.	R	NAT 3.1.1, 3.1.4	As needed	<u>Reclamation, IDFG</u>	Reclamation and IDFG	N/A
<b>NAT 2.2.1:</b> See NAT 1.4.3.						
<b>NAT 2.3.1:</b> Prohibit motorized vehicle use outside of designated areas. Install and maintain signs and barriers where needed.	H	NAT 3.5.3	Ongoing	<u>Reclamation, IDFG</u>	IDFG	As needed
<b>NAT 2.4.1:</b> Comply with all Federal and State laws related to control and abatement of water pollution. Dispose of all waste material and sewage from construction activities or project-related features according to Federal and State pollution control regulations.	R	NAT 3.1.1	Ongoing	<u>Reclamation, IDFG</u>	Reclamation and IDFG	N/A
<b>NAT 2.4.2:</b> Instruct contractors on the potential need to obtain a National Pollutant Discharge Elimination System (NPDES) permit as established under Public Law 92B500 and amended by the Clean Water Act (Public Law 95B217).	R	NAT 3.1.1, 4.1.2	As needed	<u>Reclamation, IDFG</u>	N/A	As needed
<b>NAT 2.4.3:</b> Require construction methods that prevent entrance or accidental spillage of pollutants into watercourses and underground water sources. Potential pollutants and wastes include refuse, garbage, cement, concrete, sewage effluent, industrial waste, oil and other petroleum products, aggregate processing tailings, mineral salts, drilling mud, and thermal pollution.	R	NAT 1.2.6, 2.2.3, 3.1.1	Ongoing	<u>Reclamation, IDFG</u>	Reclamation and IDFG	During construction and shortly after

**Table 6.1-1. Management Actions for Natural Resources (NAT).**

Action	Related Mgmt Actions	Priority	Timing/Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>NAT 2.4.4:</b> Any construction wastewater discharged into surface waters will be essentially free of settling material. Water pumped from behind cofferdams and wastewater from aggregate processing, concrete batching, or other construction operations shall not enter streams or watercourses without water quality treatment. Turbidity control methods may include settling ponds; gravel-filter entrapment dikes; approved flocculating processes not harmful to fish or other aquatic life; recirculation systems for washing aggregates; or other approved methods.	R	NAT 1.2.6, 2.2.3, 3.1.1	Ongoing	Reclamation, DFG	Reclamation and IDFG	During construction and shortly after
<b>NAT 2.4.5:</b> Any riprap shall be free of contaminants and not contribute significantly to the turbidity of the reservoir.	R	NAT 1.2.6, 2.2.3, 3.1.1	Ongoing	Reclamation, DFG	Reclamation and IDFG	During construction and shortly after
<b>NAT 2.4.6:</b> Appropriate controls to reduce stormwater pollutant loads in post-construction site runoff shall be followed. The appropriate facilities shall be properly designed, installed, and maintained to provide water quality treatment for runoff originating from all recreational facilities.	R	NAT 1.2.6, 2.2.3, 3.1.1	Ongoing	Reclamation, DFG	Reclamation and IDFG	During construction and shortly after
<b>NAT 3.1:</b> Where possible, work cooperatively with applicable agencies such as Gem County, Boise County, BLM, and the U.S. Forest Service, as well as affected private landowners to establish BMPs for surrounding lands where off-site activities may affect Reclamation lands and Black Canyon Reservoir.	M		Ongoing	Reclamation, DFG	N/A	N/A
<b>NAT 3.2.1:</b> See NAT 1.2.4, 1.2.5, 1.2.6, 1.2.8, 1.3.1.						
<b>NAT 3.3.1:</b> See NAT 2.3.1.						
<b>NAT 3.4.1:</b> Employ applicable recognized BMPs in the design and construction of facilities to prevent possible soil erosion and subsequent water quality impacts.	R	NAT 4.4.2 – 4.4.5	Ongoing	Reclamation, DFG, Others	Various	As needed
<b>NAT 3.4.2:</b> Utilize the planting of grasses, forbs, trees, or shrubs beneficial to wildlife, or the placement of riprap, sand bags, sod, erosion mats, bale dikes, mulch, or excelsior blankets to prevent and minimize erosion and siltation during construction and during the period needed to re-establish permanent vegetative cover on disturbed sites.	R	NAT 4.3.2, 4.4.5	Ongoing	Reclamation, DFG, Others	Various	As needed
<b>NAT 3.4.3:</b> Initiate erosion control and site restoration measures as soon as a particular area is no longer needed for construction, stockpiling, or access. Arrange schedules to minimize exposure of soils.	R	NAT 1.2.6, 2.2.3, 3.1.1	As needed	Reclamation, DFG, Others	Reclamation and IDFG	As needed
<b>NAT 3.4.4:</b> Any cuts and fills for relocated or new roads will be sloped according to acceptable engineering standards to facilitate revegetation.	R	NAT 1.2.7, 1.2.8	As needed	Reclamation, DFG, Others	Various	As needed

**Table 6.1-1. Management Actions for Natural Resources (NAT).**

Action	Related Mgmt Actions	Priority	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>NAT 3.4.5:</b> Place soil or rock stockpiles, excavated materials, or excess soil materials outside sensitive habitats including water channels, wetlands, riparian areas, and on native or naturally occurring vegetation. Shape and revegetate waste piles to provide a natural appearance, except for wetland construction as per Section 404.	R NAT 1.2.6, Others	As needed	Reclamation, IDFG, Others	Various	As needed	

**NOTES:**

- <sup>1</sup>Underline denotes primary responsibility.

**Table 6.1-2. Management Actions for Cultural Resources (CUL).**

Action	Related Mgmt Actions	Priority	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>Land-Based Sites and Facilities</b>						
<b>CUL 1.1.1:</b> Complete pedestrian archeological surveys when ground-disturbing actions are proposed in unsurveyed locations. Complete site evaluation actions to determine National Register eligibility to sites threatened by new actions, land use, or project operations, and address impacts to eligible sites.	R		Ongoing	Reclamation, IDFG	various	N/A
<b>CUL 1.1.2:</b> Complete tribal consultations, as necessary, to determine if TCPs are present in areas of new ground-disturbing actions, or are in or near focused use areas. If present, assess and address impacts from new actions or existing use.	R		Ongoing	Reclamation, IDFG	various	N/A
<b>CUL 1.1.3:</b> If Indian tribes identify culturally important resources within new development areas, avoid adverse impacts to those resource locations when avoidance will accomplish broader agency responsibilities, is cost effective, and lies within Reclamation's authority.	R	As needed	Reclamation, IDFG	N/A	N/A	
<b>CUL 1.1.4:</b> In the event of discovery of human remains of Indian origin, complete protective actions and tribal notification and consultation actions per 43 CFR 10.	R	As needed	Reclamation, IDFG	Reclamation	N/A	
<b>CUL 1.1.5:</b> Design facilities to avoid or minimize cultural resource damage.	R	As needed	Reclamation, IDFG	N/A	N/A	
<b>CUL 1.2.1:</b> Monitor for changes in integrity or condition, National Register-eligible or unevaluated sites or TCPs that are in or near focused use areas.	H	As needed	Reclamation, IDFG	various	As required	

**Table 6.1-2. Management Actions for Cultural Resources (CUL).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>CUL 1.2.2</b> Evaluate and nominate to the National Register (if justified) the Montour Townsite building foundations.	M		Initiate Year 6	Reclamation, IDFG	N/A	N/A
<b>CUL 1.2.3</b> Designate the Marsh-Ireton Ranch as an historic district.	M		Initiate Year 7	Reclamation, IDFG	N/A	N/A
<b>CUL 1.2.4:</b> Designate the old Montour Townsite and archeological sites as an historic district.	M		Initiate Year 7	Reclamation, IDFG	N/A	N/A
<b>CUL 1.2.5:</b> Retain the historic Palmer House as an intact, standing structure, after the house is vacated by the present occupant (level of protection and maintenance to be tied to funding availability). Demolition of the building would be a last resort only; it would occur only after other alternatives are analyzed and found to be infeasible, and after acceptable mitigation (such as the Historic American Engineering Record) is arrived at through Section 106 consultation.	L		Initiate Year 8	Reclamation, IDFG	Reclamation	N/A
<b>CUL 1.2.6:</b> Explore possible use of the Palmer House for interpretive and educational purposes through a cost-share partnership with a non-Federal public entity.	L		Initiate Year 10	Reclamation, IDFG	Reclamation	N/A
<b>CUL 1.3.1:</b> Develop guidelines/procedures and provide training for IDFG staff, lease holders, and other managing partners to increase awareness of the NHPA and other cultural resource statutory requirements.	M		Initiate Year 5	Reclamation, IDFG	Reclamation	N/A
<b>CUL 1.4.1:</b> Work with local partners to provide educational information about resource values and to interpret area history.	M		Initiate Year 4	Reclamation, IDFG	Reclamation	N/A

<b>REC 1.1.1:</b> Hold discussions with the City of Emmett, Gem County, and IDPR to continue exploring partnership opportunities.	M	N/A	Year 5	Reclamation, Emmett, Gem County, IDPR	N/A	N/A
<b>REC 1.1.2:</b> Pursue all other viable partnership opportunities if/when they arise.	M	N/A	As needed	Reclamation, Others	N/A	N/A
<b>** REC 1.1.3:</b> Work with IDL on lease agreement for lands at Cobblestone Park that lie adjacent to river.	M	REC 1.2.4	Initiate Year 3	Reclamation, IDL	N/A	N/A
<b>** REC 1.1.4:</b> Expand facilities/area at Cobblestone Park to accommodate additional recreational activities and demand (e.g., disc golf, group use area, better fishing access, camping, additional picnic sites).	L	REC 1.1.2, 1.2.3	TBD as per REC 1.1.2	Reclamation, Managing Partner	50/50 Cost share	As needed
<b>** REC 1.1.5:</b> Improve and add facilities at Wild Rose Park to accommodate additional day use and group-related activities, and fishing access to the river.	L	REC 1.1.2	TBD as per REC 1.1.2	Reclamation, Managing Partner	50/50 Cost share	As needed
<b>** REC 1.1.6:</b> Improve facilities at Triangle Park to better accommodate day use and group-related activities.	L	REC 1.1.2	TBD as per REC 1.1.2	Reclamation, Managing Partner	50/50 Cost share	As needed
<b>** REC 1.1.7:</b> Expand and/or reconfigure facilities at Black Canyon Park to accommodate increased day use and group-related activities.	L	REC 1.1.2, 3.3.1	TBD as per REC 1.1.2	Reclamation, Managing Partner	50/50 Cost share	As needed
<b>REC 1.3.1:</b> Provide signs at highway boat ramps indicating rules, regulations, and restrictions related to use of Black Canyon Reservoir and Montour WMA.	M	REC 4.3.1, 4.4.2, 5.1.2	Initiate Year 3	Reclamation, IDFG, Gem County, Others	Reclamation	N/A
<b>REC 1.3.2:</b> Designate a non-motorized boating access area (take-out site) adjacent to Highway Ramp #3.	M	REC 1.1.2, 5.1.3	TBD as per REC 1.1.2	Reclamation Gem County	Reclamation	As needed
<b>REC 1.4.1:</b> Evaluate requests for uses of Reclamation lands/facilities on a case-by-case basis using Reclamation's application process to ensure compatibility with resource protection objectives and to minimize user conflicts.	H	N/A	As needed	Reclamation	N/A	N/A
<b>REC 1.4.2:</b> Limit uses within Montour WMA to those that are dependent on wildlife or wildlife habitat values, which may include: interpretation, wildlife observation, fishing, hunting, and dog trials.	H	REC 1.4.2	N/A	Reclamation, IDFG	N/A	N/A
<b>REC 1.4.3:</b> Designate and utilize Triangle Park as the primary location for group use for Black Canyon Reservoir through Reclamation's reservation system at Black Canyon Reservoir.	H	REC 1.4.2	Ongoing	Reclamation	Group use applicant	As needed

**Table 6.1-5. Management Actions for Recreation and Access (REC).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>REC 2.1.1:</b> Provide fishing opportunities during periods that do not conflict with nesting or brooding waterfowl.	M	N/A	Ongoing	<u>I</u> DFG, Reclamation	N/A	N/A
<b>REC 2.1.2:</b> Maintain permanent cover for game birds.	H	N/A	Initiate Year 1	<u>I</u> DFG, Reclamation	75/25 cost share	As needed
<b>REC 2.1.3:</b> Develop ponds to provide additional waterfowl hunting sites (pond design shall also enhance dabbling duck production).	M	N/A	Year 4	<u>I</u> DFG, Reclamation	75/25 cost share	Seasonally
<b>REC 2.1.4:</b> Monitor hunter activities related to upland game and waterfowl hunting and implement strategies to alleviate conflicts, if necessary.	M	REC 2.2.1	Initiate Year 3	<u>I</u> DFG, Reclamation	75/25 cost share	Seasonally
<b>REC 2.2.1:</b> Adjust public use in response to wildlife management goals, sportsman needs, and perceptions to hunter satisfaction and public support for options to improve and/or ensure hunter satisfaction and public support. Options may include the following:						
1. Further expansion of the wildlife management area.						
2. Create controlled upland game and waterfowl hunting system similar to big game hunts.						
3. Allow hunters to use area depending on hunter's license number. Odd numbers use odd days and even numbers use even days.	H	REC 2.1.4	As needed	<u>I</u> DFG, Reclamation	75/25 cost share	N/A
4. Limit hunters to one box of shotgun shells each day (i.e., 25 shells). This would reduce length of stay of some hunters. It would also discourage high shooters.						
5. Start and end deer season before pheasant season begins.						
6. User first come, first served system with day number limit. Allow individuals limited visits per season.						
7. Limit the number of hunters by establishing blinds or shooting stations (exclusive areas for hunters).	L	N/A	Ongoing	<u>I</u> DFG, Reclamation	75/25 cost share	N/A
<b>REC 2.3.1:</b> Provide environmental education to groups (scout troops, school classes, bird watchers, and sportsmen).						
<b>REC 2.3.2:</b> Allow use of pertinent locations within Montour WMA for individualized dog training (i.e., non-group oriented events), educational and service-oriented scout activities, etc. according to established seasonal and locational restrictions consistent with IDFG regulations	M	REC 2.2.1, 2.3.3, 2.3.4	Ongoing	<u>I</u> DFG, Reclamation	N/A	Ongoing
<b>REC 2.3.3:</b> Monitor and manage public use to ensure maintenance of wildlife and their habitats.	H	REC 2.1.4, 2.2.1, 2.3.3	Ongoing	<u>I</u> DFG, Reclamation	75/25 cost share	Ongoing
<b>REC 2.3.4:</b> Monitor consumptive and non-consumptive uses and implement strategies to alleviate conflicts, if necessary.	H	REC 2.1.4, 2.2.1, 2.2.2	Ongoing	<u>I</u> DFG, Reclamation	75/25 cost share	Ongoing

**Table 6.1-5. Management Actions for Recreation and Access (REC).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>REC 2.3.5:</b> Continue to limit seasonal public access in nesting and brooding areas.	H	N/A	Ongoing	<u>IDFG</u> , Reclamation	N/A	Seasonal
<b>REC 2.3.6:</b> Allow foot traffic recreation on trails and designated roads; no vehicles allowed off of designated roads.	M	N/A	Initiate Year 3	<u>IDFG</u> , Reclamation	N/A	N/A
<b>REC 2.3.7:</b> Write newspaper articles and news releases, and conduct tours to promote Montour WMA and its wildlife and recreation values as opportunities arise.	M	N/A	Ongoing	Reclamation, <u>IDFG</u>	Reclamation	N/A
<b>REC 2.3.8:</b> Develop self-guided wildlife tour for periods not conflicting with hunting on critical wildlife production.	L	N/A	Initiate Year 3	<u>IDFG</u> , Reclamation	75/25 cost share	N/A
** <b>REC 2.4.1:</b> Upgrade the campsites at Montour Campground to accommodate larger RVs.	L	N/A	TBD as per REC 1.1.2	Reclamation, Managing Partner	50/50 cost share	As needed
** <b>REC 3.1.1:</b> Any expansion plans for Black Canyon Park shall consider adding an additional or expanding the existing swimming area.	L	REC 1.1.2, 1.2.7	TBD as per REC 1.1.2	Reclamation, Managing Partner	50/50 cost share	As needed
<b>REC 3.2.1:</b> Annually monitor and adjust, if necessary, Reclamation's agreement with Gem County Waterways Commission.	H	N/A	Annually	Reclamation, Gem County Waterways	N/A	N/A
<b>REC 3.3.1:</b> See REC 2.1.1						
<b>REC 3.3.2</b> Enhance and provide safe shoreline fishing opportunities and associated parking at Black Canyon Reservoir.	M	REC 1.1.2,	Year 5	Reclamation, Managing Partner	50/50 cost share	As needed
<b>REC 4.1.1:</b> Work with the County to address crowding and the potential for associated user conflicts on the reservoir from boating by implementing an informal monitoring and assessment of boating and other water surface activities annually through 2009. Also assess upward trends (if any) in accidents prior to potentially taking measures that may restrict additional activities. The monitoring will include counting boats on high use days, reviewing all accidents (i.e., to assess whether the number of boats contributed to the accident), talking to users regarding boating, and continuous monitoring of the water surface.	H	REC 1.1.2	TBD as per REC 1.1.2	Reclamation, Gem County	Reclamation	As needed
<b>REC 4.2.1:</b> Monitor needs and annually fund County Sheriff to provide regular seasonal boat patrols at Black Canyon Reservoir, with increased patrols during weekends and holidays.	H	N/A	Annually	Reclamation, Gem County Sheriff	Reclamation	Ongoing
<b>REC 4.3.1:</b> Prepare and make available at all boat ramps signage addressing boating safety and operating rules and regulations.	M	REC 1.3.1	Ongoing	Reclamation	Reclamation	N/A
<b>REC 5.1.1:</b> Formalize parking within the WMA by providing fewer and larger signed parking areas (i.e., less small, dispersed sites) and eliminating other ad hoc parking areas.	H	N/A	Initiate Year 2	<u>IDFG</u> , Reclamation	75/25 cost share	As needed

**Table 6.1-5. Management Actions for Recreation and Access (REC).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>REC 5.1.2:</b> Formalize access in the WMA by providing signed open and closed roads; eliminate unused ad hoc roads. Install barriers as necessary to regulate motorized access.	H	N/A	Initiate Year 3	IDFG, Reclamation	75/25 cost share	As needed
<b>REC 5.1.3:</b> Work with IDFG to develop a non-motorized boat launch area (put-in and take-out site) adjacent to the Payette River bridge.	M	REC 1.3.2	Initiate Year 4	IDFG, Reclamation	50/50 cost share	As needed
<b>REC 5.2.1:</b> Establish and implement a Memorandum of Understanding with ITD to coordinate and provide adequate signage at/to designated recreation areas and highway boat ramps to accommodate better visibility and safe ingress/egress at these locations, as well as other methods to increase highway safety and address access-related issues in the RMP study area.	H	REC 5.2.2, 5.2.3	Initiate Year 1	Reclamation, ITD	Cost share	As needed
<b>REC 5.2.2:</b> Coordinate with ITD and the County Sheriff to install barriers to prevent roadside (ad hoc) parking where it is occurring.	H	REC 5.2.1, 5.2.3	Initiate Year 1	Reclamation, ITD, Gem County Sheriff	Reclamation	As needed
<b>REC 5.2.3:</b> Work with Gem County to improve parking and vehicular circulation within the highway “County” boat ramp areas to better accommodate safe vehicular movement.	H	REC 5.2.1, 5.2.3	Initiate Year 1	Reclamation	Reclamation	As needed
<b>REC 5.2.4:</b> Work with the County to enforce no parking at areas adjacent to recreation sites and highway boat ramps.	H		Ongoing	Reclamation, Gem County	N/A	As needed
<b>**REC 5.3.1:</b> Work with entities to ensure that accessibility and safety are addressed.	H		Ongoing	Reclamation	N/A	As needed
<b>**REC 5.4.1:</b> If available, work with managing partner for new trail development and maintenance, and ensure that accessibility and safety are addressed	H		Ongoing	Reclamation, Managing Partner	50/50 cost share	As needed
<b>**REC 5.4.2:</b> Stay abreast of any changes related to Thunder Mountain Railroad Company plans and future use or disposal of the railroad and associated right-of-way. If at a future time the railroad company decides to abandon use of the railroad/right-of-way, then cooperate with other agencies to potentially acquire the railroad right-of-way adjacent to and through the reservoir/WMA to use as a public trail.	H		Ongoing	Reclamation	N/A	N/A
<b>REC 5.6.1:</b> Update the accessibility review for all recreation sites and upgrade as necessary.	H	N/A	Initiate Year 2	Reclamation	Reclamation	N/A

**Table 6.1-5. Management Actions for Recreation and Access (REC).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>REC 5.6.2:</b> Provide an accessible fishing pier at the easternmost portion of Black Canyon Park.	M	REC 1.1.2, 1.2.7, 3.3.2	Year 4	Reclamation, and/or Managing Partner (if available)	Reclamation or 50/50 Cost share	As needed

**NOTES:**

- <sup>1</sup>Underline denotes primary responsibility.
- N/A = Not applicable.
- \*\*Adoption and implementation of the objectives and/or management actions denoted with an “\*\*” are dependent on Reclamation getting a non-Federal managing partner and/or concession agreement to manage recreation at Black Canyon Reservoir and Montour Campground.
- All new facilities, programs, and information will be designed in accordance with current standards for accessibility for persons with disabilities.
- TBD = to be determined.

**Table 6.1-6. Management Actions for Land Use, Management, and Implementation (LMI).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>Land-Based Sites and Facilities</b>						
LMI 1.1.1: Design new facilities to be compatible with scenic values, ensuring that they are not intrusive to the surrounding landscape.	H	LMI 1.1.2	As needed	Reclamation, IDFG, Others	N/A	N/A
<b>LMI 1.1.2:</b> To the maximum extent possible, preserve and use native plants for landscaping. Facilities shall incorporate sustainable development elements as much as possible and be designed and positioned in a manner that is least intrusive to the area's scenic qualities.	H	LMI 1.1.1	As needed	Reclamation, IDFG, Others	N/A	As needed
<b>LMI 1.1.3:</b> Require and ensure compliance with applicable design standards, guidelines, and BMPs for erosion control structures and any other permitted improvements on Reclamation shore lands.	H	LMI 1.1.1	As needed	Reclamation, IDFG, Others	N/A	As needed
LMI 1.2.1: Include specific measures in agricultural and grazing leases allowed adjacent to the reservoir that are aimed at protecting habitat restoration, if deemed necessary.	H	LMI 1.2.2, 1.2.3	Year 1	Reclamation	N/A	N/A
LMI 1.2.2: Implement a monitoring program to ensure that reservoir agricultural and grazing leases are in compliance with all leasing conditions.	H	LMI 1.2.1, 1.2.3	Year 1	Reclamation	N/A	As per monitoring program
<b>LMI 1.2.3:</b> Discontinue reservoir leases that are not in compliance with lease conditions, and require habitat restoration as part of lease conditions.	H	LMI 1.2.1, 1.2.2	As needed	Reclamation	N/A	As per monitoring program
LMI 1.3.1: Evaluate existing agricultural and grazing leases as they become due for review to comply with WMA goals and objectives.	H	LMI 1.3.2, 1.3.3, 1.3.4	Ongoing	Reclamation	N/A	N/A
LMI 1.3.2: Include specific measures in agricultural and grazing leases allowed within the WMA that are aimed at protecting habitat restoration, if deemed necessary.	H	LMI 1.3.1, 1.3.3, 1.3.4	Year 2	Reclamation, IDFG	N/A	N/A
<b>LMI 1.3.3:</b> Implement a monitoring program to ensure that WMA agricultural and grazing leases are in compliance with all leasing conditions.	H	LMI 1.3.1, 1.3.2, 1.3.4	Year 1	Reclamation, IDFG	N/A	As per monitoring program
<b>LMI 1.3.4:</b> Discontinue WMA leases that are not in compliance with lease conditions, and require habitat restoration as part of lease conditions.	H	LMI 1.3.1, 1.3.2, 1.3.3	As needed	Reclamation	N/A	As per monitoring program

**Table 6.1-6. Management Actions for Land Use, Management, and Implementation (LMI).**

Action	Priority	Related Mgmt Actions	Timing/ Sequence	Lead Agency <sup>1</sup>	Funding	Monitoring
<b>LMI 2.1.1:</b> Describe and show the Reclamation Zone (dam and area surrounding the dam) on publicly distributed materials and signage.	M	LMI 2.2.1	Initiate Year 2	<u>Reclamation</u>	Reclamation	N/A
<b>LMI 3.1.1:</b> Monitor needs and annually fund County Sheriff to provide regular seasonal patrols at all recreation area, with increased patrols during weekends and holidays.	H	N/A	Annually	<u>Reclamation, Gem County Sheriff</u>	Reclamation	Ongoing
<b>LMI 3.1.2:</b> See REC 4.2.1						
<b>LMI 3.2.1:</b> Evaluate if a formal agreement for fire suppression activities on Reclamation lands with the Gem County Fire District #2 covering the area from the dam eastward would be needed and if such an agreement would cause a modification of any existing wildland fire suppression agreement.	H	LMI 3.2.2	Initiate Year 3	<u>Reclamation, Gem County Fire Department</u>	N/A	N/A
<b>LMI 3.2.2:</b> Work with applicable entities to develop and implement a Fire Protection and Management Plan as may be required.	H	LMI 3.2.1	Initiate Year 3	<u>Reclamation, BLM, Gem County Fire Department, IDFG</u>	Reclamation	N/A
<b>LMI 3.3.1:</b> Disseminate State/County information to the public at all appropriate locations at Black Canyon Reservoir regarding boating safety through brochures, maps, signs, kiosks, or other appropriate means.	H	N/A	Ongoing	<u>Reclamation, Gem County Sheriff</u>	Reclamation	As needed
<b>LMI 3.4.1:</b> Develop and place signs around no-shooting zone that clearly demarcate the area.	H	LMI 3.4.2	Initiate Year 2	<u>Reclamation, IDFG, Gem County Sheriff</u>	Reclamation	N/A
<b>LMI 3.4.2:</b> Show and describe the WMA no-shooting zone on all maps and pamphlets.	H	LMI 3.4.2	Initiate Year 2	<u>Reclamation, IDFG</u>	Reclamation	N/A
<b>LMI 3.5.1:</b> Coordinate with appropriate entities in efforts at establishing wildlife buffers where development is proposed adjacent to Montour WMA.	M	LMI 3.5.2, 3.5.3	As Needed	<u>Reclamation, IDFG</u>	N/A	N/A
<b>LMI 3.5.2:</b> Coordinate with appropriate entities in efforts at establishing wildlife buffers where development is proposed adjacent to the reservoir, wetlands, and riparian areas.	M	LMI 3.5.1, 3.5.3	As Needed	<u>Reclamation, IDFG</u>	N/A	N/A
<b>LMI 3.5.3:</b> Provide information to appropriate entities on techniques to reduce visual contrast and enhance aesthetic design for developments adjacent to Reclamation lands. Examples might include: 1. Avoiding placing structures and roads on ridgetops. 2. Following topographic contours in road-building to reduce cut-and-fill scars. 3. Choosing environmental colors and using non-glare materials where possible.	M	LMI 3.5.1, 3.5.2	As Needed	<u>Reclamation</u>	N/A	N/A

**Table 6.1-6. Management Actions for Land Use, Management, and Implementation (LMI).**
